

Contributing Photographers: How to Upload jpegs (Textures, Design Elements etc)

Follow these instructions to upload jpeg files in these categories: Textures, Depth of Field (Waist-up Compositing backgrounds) Design Elements and Single Backgrounds.

Log into your account at CompositingStock.com.

Click on the Add New Media Link and the Upload New Media dialog will open. Click the Add Files button and choose your jpeg file.

You are logged in as:

In the Pricing tab, uncheck Original.

Add Media Details

Galleries Details **Pricing** Products

Choose the items to sell from the list below.

Original

Original

In the Products Tab choose either Texture, Depth of Field Design Elements or Single Background. This will set the price at \$15.

Add Media Details

Galleries Details Pricing **Products**

Choose the items to sell from the list below.

Texture

Depth of Field

Design Elements

Single Background

Press Save to complete the operation. Your image will then show as Pending Approval.

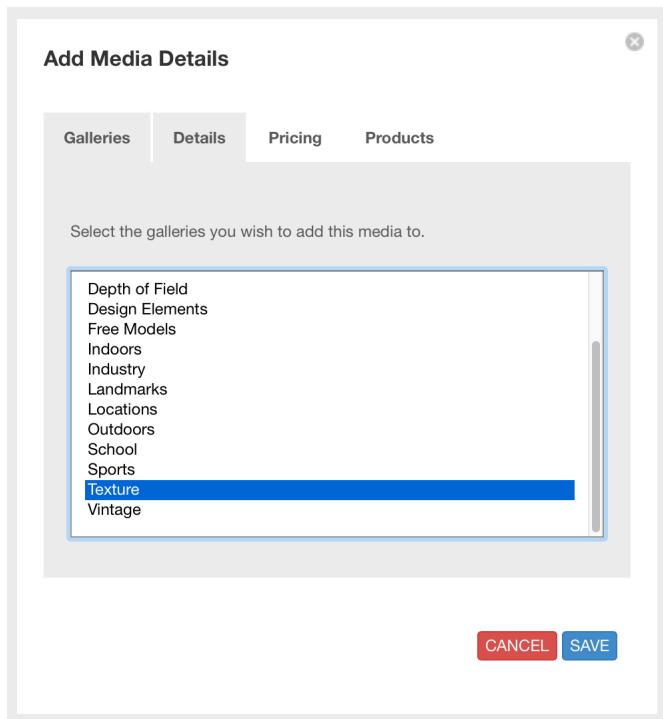

Contributing Photographers: How to Upload jpegs (Textures, Design Elements etc)

You can also upload multiple images at once. This works best when you are uploading files in the same category, for example, a number of metal textures.

In the upload dialog, add multiple files and press Start.

Then add details, keeping in mind that the same details will be added to all the files.

In the Details tab, choose a relatively generic Title: you will edit the individual layers later.

Enter a description that applies to all the images – again you can add more details to each image later.

Enter Keywords that apply to all the images.

In the Pricing tab, uncheck Original.

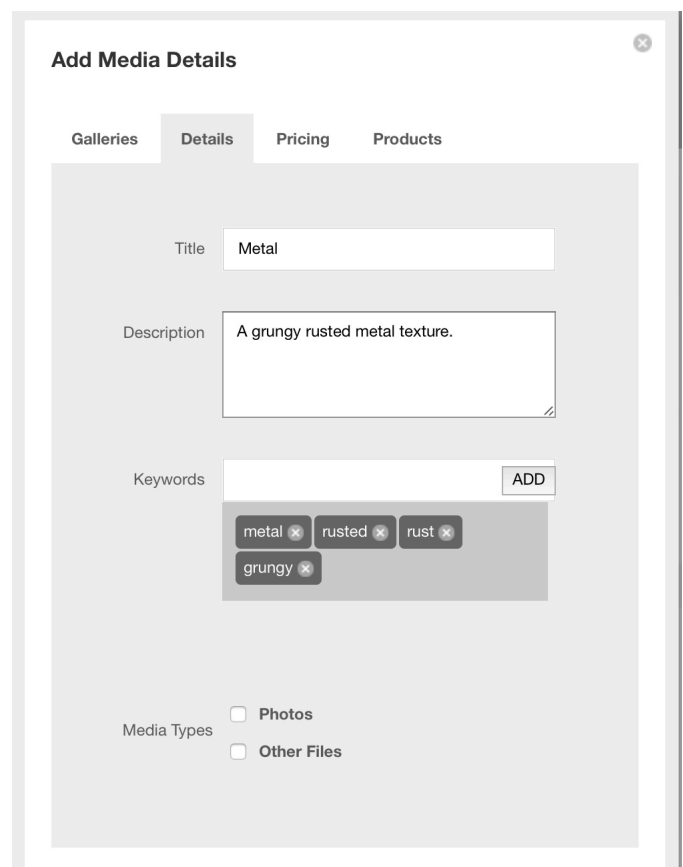

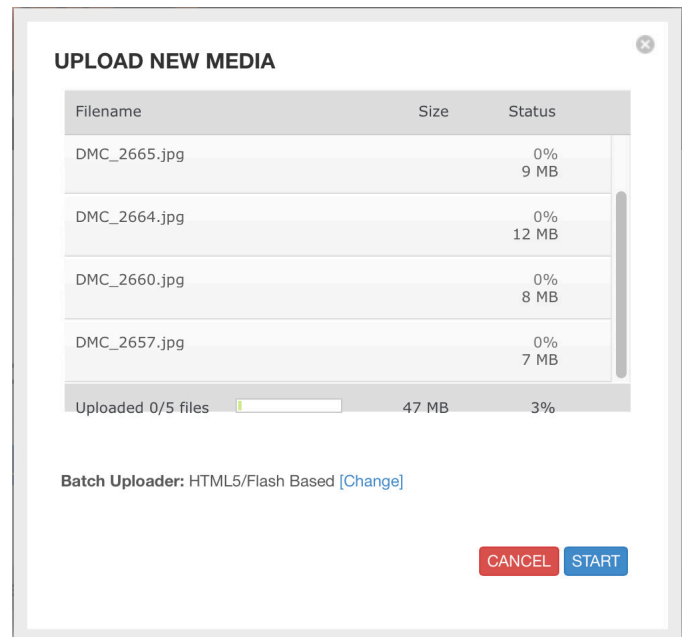

In the Products Tab choose the appropriate option:

Texture

Depth of Field

Design Element

Single Background

Contributing Photographers: How to Upload jpegs (Textures, Design Elements etc)

Once the files have uploaded, go to the My Media link to see the files and make any editing changes. Use the edit button (circled here) to go back and make changes to the Titles, add to the description, etc.

Pending Approval
